

The University of Konstanz has been successful in the German Excellence Initiative and Excellence Strategy since 2007.

The Department of Physics in the Faculty of Sciences, subject to the approval of the Ministry of Science, Research and the Arts Baden-Württemberg, seeks to fill a

W2-Full Professorship of Experimental Physics

at the earliest possible date. The professorship is a temporary position, limited until 30.09.2024.

We are looking for a scholar with international visibility and broad expertise in research concerning the field of condensed-matter physics with emphasis on superconducting spintronics with oxides and two-dimensional materials. Candidates should be able to contribute to one or several of the following ongoing research activities of the department: physical properties of solid-state nanostructures, spintronics, quantum physics and quantum information. Candidates are expected to teach in our undergraduate and graduate programs in Physics and to connect to the research activities of our department and if possible also to related departments in the Faculty of Sciences. We are interested in candidates who have an excellent international publication record and exhibit strong skills in the classroom. Recruitment requirements are an excellent university degree, doctorate, outstanding habilitation or equivalent scientific achievements, acquisition of a high-profile third-party research grant as well as experience in teaching scientific issues.

Further information is available on our website: uni.kn/stellen.

Applications should be **sent electronically until 21 November 2019** under the reference number **2019-287** formatted into one pdf-file to: prof-2019-287@uni-konstanz.de.
